Hurricane Season

Hurricane season begins on June 1st and lasts through November 30th. With us being away from the coast, our area does not always have to worry about the effects of hurricanes. Here are a few tips to keep in mind:

- Create and review a safety plan with your family
- Check your supplies (batteries, blankets, etc.)
- Create an evacuation plan in the event of a mandatory evacuation
- Secure any outdoor items to withstand heavy winds and/or flooding
- Make sure your vehicle is as safe as possible and away from any trees

It is important to follow these steps *before* a hurricane becomes a threat to our area.
