Monday, August 14th at 7:00PM - City Council

NOTICE OF SMOKE TESTING

The City of Pembroke will be conducting smoke testing to the sanitary sewer system. These tests involve blowing harmless smoke into parts of the sewer system to find damage, improper connections, and where unwanted water may be entering the city's sewage system. As a result, smoke may be seen coming from roof vents, building foundations, and catch basins, clean-outs, down spouts, sewer laterals or manhole covers. The smoke will not enter your home or business **if it is properly plumbed, vented and the water traps contain water.**

The smoke used is a non-toxic substance that is harmless to humans, pets, food, and material items. If smoke does enter the building, it will clear in a few minutes with proper ventilation. Please advise a representative of the smoke testing crew if any leakage occurs in your home or business. If you have any questions about the test feel free to contact the Utility Department at 912-653-4413.

Your presence is not required during the tests, and all public safety authorities have been notified of this event.

Thank you for your cooperation.
